# BOONE

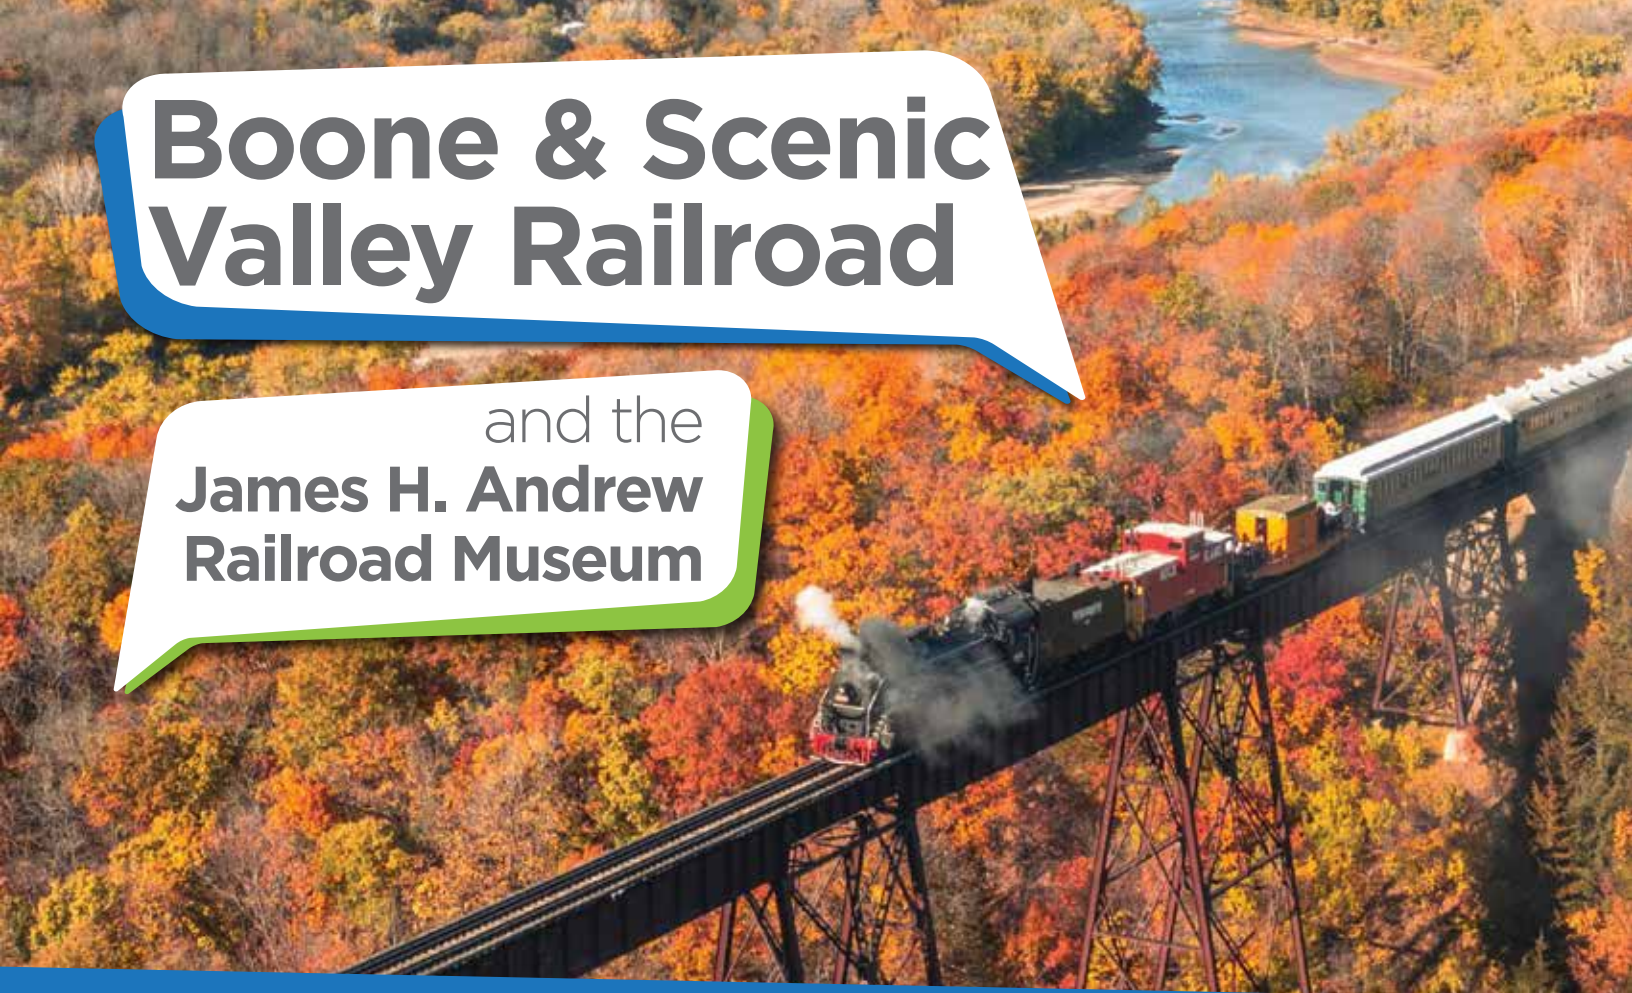

**Founded in 1866**, the city of Boone was originally named Montana. By 1871, it had been renamed **BOONE** after Capt. Nathaniel Boone, the youngest son of Daniel Boone, who led Company H of the Dragoons across what became the state of Iowa back in 1835. Nearby, another small town called Boonesboro had emerged. Eventually, it became a part of its larger neighbor. The railroad played a pivotal role in the incorporation and growth of Boone for the first century of its existence. Boone also laid claim to a **rich coal mining** operation for the better part of the early twentieth century. Fueled by these two industries, Boone rapidly expanded to a community of 12,000 people by 1920, with a bustling Main Street adorned by two domineering (at the time) bank

buildings, First National Bank (now US Bank) and Boone National Bank. The city remains intrinsically tied to its railroad heritage, with numerous displays reflecting this history. A major attraction, the **Boone & Scenic Valley Railroad**, operates tourist excursions throughout the year into the nearby Des Moines River Valley. Boone also hosts one of the state's largest community festivals, appropriately named "**Pufferbilly Days™**" after the little steam engines that were used in coal mines. With an abundance of specialty shops and numerous places to eat, drink, or enjoy time with family, Boone is an exceptional destination nestled in the heart of Boone County.

and the  
**James H. Andrew  
Railroad Museum**

Each year, thousands of people from across the state, nation, and globe make the journey to Boone, Iowa, to ride the rails of the **Boone & Scenic Valley Railroad**, also known as “**The Scenic Line.**” Renowned for its 156-foot Bass Point Creek High Bridge, offering breathtaking views of the Des Moines River Valley, the railroad boasts steam and vintage diesel locomotives. Whether you’re seeking a leisurely lunch or dinner train ride, an electric trolley adventure, or one of the numerous special events, there’s something for everyone. Originally built to

transport coal from the Des Moines River Valley, the railroad now operates from Memorial Day weekend through October 31, Thursdays through Sundays. Special events like **Day Out with Thomas, Santa Express, Pumpkin Express, and Valentine Trains** add to the year-round excitement. The expansive **James H. Andrew Railroad Museum** offers a glimpse into railroad relics of the past and showcases new rotating exhibits on a regular basis.

# Mamie Doud Eisenhower Birthplace

Mamie Geneva Doud was born on November 14, 1896, at 718 Carroll St. in Boone. Mamie was the second of four daughters born to Elvera Mathilde (Carlson) and John Sheldon Doud. She grew up to become the wife of the 34th president of the United States, Dwight David Eisenhower.

While Mamie was still an infant, the Douds moved from Boone to Cedar Rapids. In 1905, after making a fortune in the meat packing industry, Doud moved his family to Colorado, where they eventually settled in Denver. However, Mamie never lost contact with her mother's

*"Mamie Eisenhower is fondly expected to touch off a social renaissance and to lend a new warmth to the affairs of the presidency."*

—TIME MAGAZINE, JANUARY 19, 1953

Boone family, the Carlsons. Throughout the 1940s and 1960s, the Eisenhowers regularly visited Boone. Following Ike's passing in 1969, the Eisenhower family continued to visit frequently. Mamie herself preserved her connection to Boone, making her final visit in 1977, two years before her own death.

Over the years, the Birthplace was inhabited by many families, at one time housing three individual apartments, resulting in extremely close quarters for residents. By 1970, the Eisenhower Birthplace home was set for demolition, and local citizens were quick to sound the alarm. The Friends of the Mamie Doud Eisenhower Birthplace raised thousands of dollars to restore the home, and the land was donated for the relocation of the Birthplace in 1975 to a location across the street. Following five years of restoration, the Mamie Doud Eisenhower Birthplace opened on June 22, 1980.

This attraction is open June 1 to October 31. Other times are available by contacting us. Schedule a tour at: [mamiebirthplaceboone@gmail.com](mailto:mamiebirthplaceboone@gmail.com)

# Hunting & Fishing

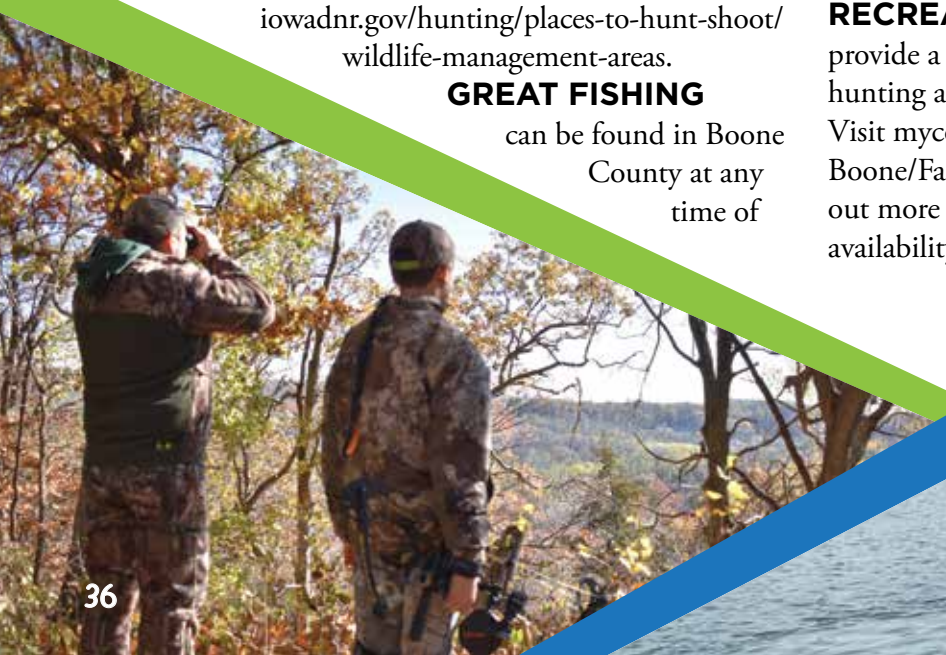

Boone County is one of the **RICHEST AREAS IN IOWA FOR HUNTING ACCESS**, boasting over 10,000 acres of public land. Opportunities to find deer, turkey, waterfowl and all types of small game are plentiful. Areas like the rugged Barkley and Holst State Forests, the McCoy Wildlife Area, Harrier Marsh, and the forests and floodplains along the Des Moines River Valley provide some incredible settings for any hunting excursion. Access points, aerial maps and more can be found online at [iowadnr.gov/hunting/places-to-hunt-shoot/wildlife-management-areas](http://iowadnr.gov/hunting/places-to-hunt-shoot/wildlife-management-areas).

## **GREAT FISHING**

can be found in Boone County at any time of

year. The spring and fall are particularly good for hungry walleyes in the Des Moines River at places like the Fraser Dam and Tilley's Hole. You'll pull catfish out of most any stretch of the river throughout the summer months, too. Don't overlook Don Williams Lake either; you'll keep your lines tight in the summer with bass and through the winter ice with an abundance of crappie and bluegill.

Basecamp for any hunting or fishing expedition begins with the **CABINS AT DON WILLIAMS RECREATION AREA**. These rustic 4-season cabins provide a cozy place close to some of the best hunting and fishing the county has to offer. Visit [mycountyparks.com/County/Boone/Facility/Search.aspx](http://mycountyparks.com/County/Boone/Facility/Search.aspx) to find out more on their details and availability.

# OGDEN

Established by the railroad, Ogden is nestled in the heart of the Midwest, conveniently situated 20 minutes from Ames and 45 minutes from the Des Moines metro. As you traverse downtown on the famous Lincoln Highway, you'll encounter an array of modern businesses catering to the community's diverse needs and desires.

# Kate Shelley Memorial High Bridge

**July 6, 1881** is a date forever rooted in Boone County's history. As the shadow of midnight encroached on the landscape of the river valley of Moingona, Iowa and a ferocious storm raged in the vicinity of the Shelley Homestead,

**Kate Shelley** was considering the fates of others.

Dressed in a simple prairie dress, Kate Shelley left the safety of her home in the pelting rain. Crawling across the Des Moines River Bridge under thundering skies and over churning black waters, she ventured to save the lives of those on an oncoming train. Kate Shelley's bravery made her instantly famous from California to New York, with her story being featured in national headlines. The medals she received for heroism are on display at the **Boone Co. History Center**, along with the lantern she carried that night. Other mementos and accolades of her heroic act can be viewed at the Boone County History Center.

"If you must go, do what you can."

a Schoolhouse

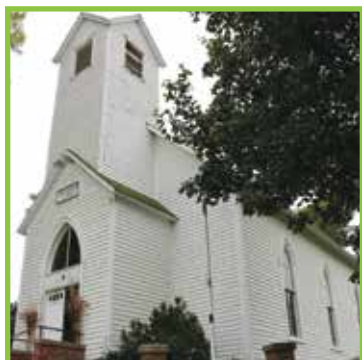

## COLE SCHOOL

### The Little Brick Schoolhouse on the Prairie

**Cole School operated from 1888-1933** and is located northeast of Boone on R Avenue. This school is a historic structure that is notable for its unique three-layer brickwork. The De Shon Chapter of the Daughters of the American Revolution (DAR) adopted the school and completely and accurately restored the site. The restoration process at Cole School included extensive masonry work with complete tuck pointing, a brand-new floor to replace the floor lost to time and elements, and thorough cleaning due to housing sheep for some time. New blackboards from a local high school, school desks from local auctions, a potbelly stove, and a variety of books, school-related artifacts, and teacher supplies are part of the Cole School collection. The Country School Association of America has recognized the facility on their national registry of rural schoolhouses. DAR maintains the site, and visits to Cole School can be arranged by contacting DAR Member Barb MacDougall at (515) 298-2212.

## BATTIN HERITAGE PARK

If these walls could talk! The Battin Heritage Park features not one, not two, but three historic gems all from Boone County!

### THE BATTIN CHAPEL

The Battin Chapel was built in 1887 at its original location and was active until closing in 1975. The Battin Heritage Association was formed in 1995 to restore and preserve the historic chapel after sitting empty for two decades.

### THE BERKLEY DEPOT

The Berkley Depot was built in 1882 and was located in the town of Berkley in southwest Boone County. It was on the Minneapolis and St. Louis Railway, which also ran through Ogden. The depot was abandoned in 1938 and shuffled around multiple locations across the county before being purchased, moved and restored by the association from 1995 to 2005.

### HICKORY GROVE SCHOOL

The Hickory Grove School was built in 1889 and was originally located northeast of Ogden in Yell Township. The school closed in May of 1956 and was eventually moved to Don Williams Recreation Area in 1964 and restored in 1972. The Battin Heritage Association acquired it in 2005 and added the schoolhouse to the park in 2006.

The Battin Heritage Association hosts an annual old-fashioned Christmas Sing-along and welcomes gatherings for weddings and other life events. Tours can also be scheduled!

These three buildings, brimming with history, are all conveniently located on the corner of the Historic Lincoln Highway (216th Dr.) and J Avenue, just 2 miles east of Ogden.

To learn more and schedule a visit, message the Battin Heritage Association on Facebook or call Doug Nebbe at 515-230-8497.

**MADRID** (pronounced (MAD-rid) is an energetic, growing community in the southeast corner of Boone County. The continued development of the High Trestle Trail, which cuts through its center along the downtown's south side, attracts tens of thousands of people each year. This 34-mile trail has received international recognition for its centerpiece, the **High Trestle Trail Bridge**, which sits just over two miles to Madrid's west and at 130' high, spans the valley at one-half mile long! **Dalander Park** is a favorite spot to park, offload the bikes and head down the trail in either direction. Plenty of food and beverages are available from many local establishments situated a stone's throw from the trail. Didn't bring a bike? Don't worry, they've got bike rentals covered too! Madrid hosts a Labor Day Celebration (Friday through Monday) and a Christmas Kickoff in early December.

## Where to find the High Trestle Trail

The paved recreational trail opened on April 30, 2011. Since then, countless pedestrians have admired the beauty of the thirteen-story bridge overlooking the Des Moines River Valley. The 25-mile trail extends from Ankeny to the north, through the cities of Slater and Madrid, and ends in Woodward, Iowa to the west. A trail extension to Perry opened in 2024.

The focal point of the High Trestle Trail is the bridge itself, which features cribbing on the deck directly above the water, lined with blue LED lights. These lights illuminate the deck and mirror the water flowing below. The lights are designed to minimize disruption to the wildlife in the valley and can be turned on and off for special events. From April 1st to October 31st, the bridge lights are on from sunset to 12 a.m., while during the winter months from approximately November 1 through March 31 from sunset until 9 p.m.

The elevated columns supporting the bridge are gently down-lit, casting an aura of light onto the valley floor. Entering the bridge, two 36-foot-tall monoliths stand on either side, forming an enormous V. More than 16,000 custom-glazed ceramic tiles, created in the RDG Art Studio, were placed on the monoliths to represent the veins of coal running through the region.

The High Trestle Trail Bridge has been named the best bike-accessible bridge in Iowa by the Iowa Bicycle Coalition several times and was named one of the world's eight most amazing footbridges by the BBC. Come see this amazing attraction in Boone County!

# Madrid History Museum

## THE MADRID HISTORY MUSEUM

showcases the development of the community from its early years as a Swedish settlement (then known as Swede Point) to the arrival of the railroad and the coal mining industry. The Museum is also known for its extensive Keigley doll collection and Genealogy Center. Visit the Museum website for a virtual tour at [Madridiamuseum.com](http://Madridiamuseum.com).

The Museum is open every Saturday from 10 a.m. to noon, Mondays from 9:30 a.m. to noon, and by appointment by calling (515) 795-3249.

# Swede Point Park

This little known piece of heaven is located in southern Boone County, just a mile north of state Highway 210 near the Des Moines River Valley. **SWEDE POINT** gets its name from the Swedish settlers who relocated their families near this area in 1846.

The park features 24 electric camping sites with new gravel pads and two non-electric camping areas. A modern bathroom and showering facility, two hiking trails, picnicking areas, updated playground equipment, a basketball court, a sand volleyball court, and an enclosed shelter house (reservations required) are also available.

The area terrain is a mix of prairie, streams, and oak-hickory woodlands and savannas. You will find a large array of wildlife here from deer and coyotes to owls and hummingbirds. The Des Moines River is just a short but challenging hike down into the deep valley, but well worth the effort. At the river you might find bald eagles, raccoon, pelicans, and more. If you are looking for a quiet getaway, look no further than Swede Point Park.
